Dear Charlotte,

Thank you for participating in the Chicago Department on Aging's Citywide Senior Conference at McCormick Place on Thursday, May 3, 2007. Our conference, "The Power of Positive Living" highlighted practical solutions to issues facing Chicago seniors.

During the day long Chicago Department on Aging designated event, more than 1200 seniors participated in workshops covering a number of important topics. Our resource fair featured information from over 70 different senior providers, allowing participants one-stop access and information on a variety of government, health and community services.

Feedback from the event has been extremely positive. Participants offered an assortment of suggestions and ideas for next year's conference in their evaluations.

On behalf of Mayor Richard Daley and Commissioner Joyce Gallagher, thank you for your participation in this event.

Very truly yours,

Pamela Pagone

"Creating options for an aging society."
